

Please help Toula

An animal rights activist with a big heart has taken in two blind cats from an emergency situation. Both cats have been blind since they were young. Toula's eyes are constantly inflamed and need to be completely removed to prevent further damage.

The operation will cost around 1,800 euros. Katrin is already working hard to raise this sum at the same time through flea market sales.

Please also help so that Toula no longer has to resist the constant inflammation in her body.

Thank you very much!
