

## Aegina Fistiki Fest 2024 - September 12-15, 2024

Animal Protection was present at this year's Pistachio Festival, the main attraction in Aegina every September, on the famous harbor promenade of Aegina town. We exhibited homemade items, some of which arrived from our friends in Germany, to give to animal lovers in exchange for a donation. Here are a few impressions of the donations. You could be jealous of not having been there:

We would like to thank all the crafters for the great things we were able to exhibit.
